CONSENT TO TREATMENT

I, the undersigned, understand that methods of treatment used in this practice may include, but are not limited to, acupuncture, acupoint injection, moxibustion, cupping, gua sha, electrical stimulation, herbal therapy, massage, Qi Gong, yoga, laserpuncture, sonopuncture, and nutritional counseling. I understand that these modalities are all safe methods of treatment. Potential risks include temporary bruising, swelling, bleeding, numbness and tingling, and soreness at the needling site that may last a few days. Unusual risks of acupuncture include dizziness, fainting or nerve damage. Infection is possible, although the clinic uses alcohol and sterile disposable needles and maintains a safe and clean environment. Potential risks of moxibustion are burns, blistering, or scarring. Temporary bruising or redness lasting a few days is a common side effect of cupping and gua sha. I fully understand that there is no implied or stated guarantee of success or effectiveness of a specific treatment or series of treatments.

I will notify the acupuncturist should I become pregnant or if I am in the process of trying to get pregnant so that my practitioner can avoid points and herbs that could induce miscarriage. I understand that herbal and nutritional supplements recommended to me by my acupuncturist are safe in the recommended doses. Large doses taken without my practitioner's recommendation may be toxic, and some are inappropriate during pregnancy. Some possible side effects of herbs and supplements are nausea, gas, stomachache, vomiting, headache, diarrhea, rashes, hives and tingling of the tongue. I understand that I must stop taking any herbs and notify my acupuncturist as soon as I experience any discomfort or adverse reactions.

I understand that my acupuncturist may review my medical records and lab reports, but all my records will be kept confidential. If it is necessary to share my health information, this will be handled in accordance with the stipulations detailed in the Notice of Privacy Practices document that has been provided to me, and of which I have acknowledged receipt.

I understand that I can discuss risks and benefits further with my practitioner before signing if I so choose. However, I do not expect my practitioner to be able to anticipate and explain all possible risks and complications of treatment. I rely on the practitioner to exercise their judgment in my best interest during the course of treatment, based upon the known facts.

In signing this form, I acknowledge any inherent risks, and give my consent for treatment, payment and healthcare operations received, incurred or carried out at this practice.
