

MICRONEEDLING AFTERCARE

You Will Be Red 8-12 Hours.

Aloe Vera will help reduce redness

No Exercise Today

Sweat can irritate the face

Stay Out Of The Sun

Stay out of the sun the day you receive micro needling. Use mineral sunscreen for a week after micro

No Make Up Today

Use Hyaluronic Acid

Use when your skin feels dry and before you go to bed tonight.

Do Not Use Facial Soap Today

You can wash your face with plain warm water.

Back To Your Normal Facial Routine Tomorrow

Facial products have a much higher absorption rate the week after micro needling. It takes 2 weeks to fully see results from the treatment.

Book Your Next Micro Needle 1 Month From Now

You must wait 1 month before your next micro needling, however, Nano needling may be done weekly to accelerate the results.
